CURRENT EDUCATION

Fullstack Developer - Javascript, Teknikhögskolan, Lund

August 2023 - present

I have recently decided to change career path and am completing my training as a developer. At the time of writing I am completing my final work placement at [Studentlitteratur](#), working on the [Studora](#) platform (NextJS/Go/Python).

WORK EXPERIENCE

Lunds University (and other universities) — *Lecturer in English*

2017-2023

Many years of experience in a research environment have made me very comfortable working on complex projects both independently and in a team.

MHP, London — *Business Analyst*

2002-2006

Responsible for producing and presenting statistical reports to the board, employees, and regulatory authorities. I worked closely with the development team.

WARC, Henley-on-Thames — *Senior Editor*

1999-2002

I took a lead in utilising technology to make production processes more efficient. I taught myself to write complex macros in Visual Basic to speed up publication of [WARC](#)'s statistical products.

QUALIFICATIONS

PhD English Literature, Lunds universitet

2012-2017

MA Literature, Culture, Media, Lunds universitet

2009-2011
